Yes – that's fine. I will try to get you the updated info on how many significant deficiencies remain today or tomorrow.

Thanks Sarah. I agree with your list with one exception, I think we should include significant deficiencies. Todd has elevated this in both the region and HQ, and I imagine he'll use the opportunity of a new RA to raise it again.

I think that all of these are on the E-briefing site and/or Bert and I are pretty familiar with them so I should have what I need to get started on my list. Once the meeting is scheduled I'll reach out for an update. Does that work for you?

D

Subject: SDWP Hot Issues

Hi Darcy –

I talked to the unit managers, and we all think the e-briefing topics cover our current list of hot issues. Those are:

Fort Berthold – includes DW and UIC
PFAS drinking water contamination in Colorado
Dewey Burdock UIC Permits
AGC's appeal of aquifer exemption decision
NDIC UIC Class II review
NDIC UIC Class VI primacy

We think it's too early to discuss Denver Water or WY Sig Deficiencies with Doug, if you agree.

Thanks,
Sarah

Subject: Notes

Meetings w/ARAs - Doug with each ARA on the following:

Hot Topics

Key Issues

Problems

Substance, political issues, community issues, communication issues and timelines - within the next week or so

His travel schedule - where he should go

Topics for the media - editorial boards, what do we want to highlight

Wants to be invited to LT Meetings and All Hands meetings (one of each)

Will set up meeting with each of the senior advisors - what do they do and what to expect from them

Interested in having convos with ARAs and budget folks. Second meeting w/ARAs

OWP - status update on PWS - understand where we have problems, what's going well, anything he needs to know. Unclear if this the same as the DW meeting he requested.

Request that we keep meetings/briefings small

Patrick - Administrator talking to the heritage foundation - we should be prepared that we provide a list of permits that are beyond 180 days.

Doug - planning to work M-F
